

5. Let's Chat About Data Based Decision Making

Audience: Secondary
Marriott

Room: Ballroom C

Chat with the presenters about how high school counselors can use data to guide program development and effectiveness. Participants will work through some real-life examples that align to the ASCA National Model® and learn a simple data-based decision making model. If you have it, bring some data to discuss (e.g., your school report card).

Melissa Beverly is currently the Co-Chair for the AzSCA Research Committee as well as a full time high school counselor at Cactus Shadows High School in the Cave Creek Unified School District. The Cactus Shadows HS counselors received the RAMP award in December 2008.

Brian Mathieson is a Mesa Public Schools (MPS) Prevention Counselor and an AzSCA Past President. Among other things, Brian is responsible for supporting the full implementation of the ASCA National Model® at MPS secondary schools.
